

Why would you like to limit a service that I PAY for?
Think about it! What better American enterprise that provides a service, which I am willing to pay for, which harms no one else and which, as a Federal agency, YOU should be willing to support.

I'm retired, like to motor home and like the services that I have--whenever I want them--24/7.

Find something more significant to do than bother those of use who pay for what they want--because we DESERVE IT!
